### **Eco Award**

Schools within the MAT have noticed that pupils are increasingly concerned about climate change, our earth and the newspaper articles they read about damage to the environment. We have therefore decided to invest time in achieving an Eco Award in each of our schools. At St Mark's we considered our immediate environment and decided upon working with the Woodland Trust. Please keep an eye on newsletters over the course of the year; we would appreciate your help with the award (be it helping to plant trees, accompanying us on visits to woodland or any of the other tasks required to achieve the Eco Award status).
